14 Feedback Mechanism:

NMIMS has a well-established online feedback mechanism through the Student Portal for communication of perceptions. The components of this feedback mechanism are:

- 14.1 Feedback at the end of the third week of every trimester/Semester. Dean / Director /Programme Chairperson/HOD will meet students personally, if applicable.
- 14.2 Online Feedback through the Students Portal is taken using a questionnaire, preferably in the last session of every course in each trimester/Semester. This feedback is compiled, and statistics are placed before each faculty member by the end of the trimester/Semester.
 - 14.2.1 All students should get involved in this mechanism seriously, as it truly helps the NMIMS improve the quality of services and teaching provided.
 - 14.2.2 These are open-ended questions in which students can reflect on learning and teaching aspects of the course.
 - 14.2.3 NMIMS uses feedback to improve the teaching-learning process proactively.
 - 14.2.4 While sharing the feedback to the faculty members, the student's identity is kept confidential.

15 Mentoring Programme / 'Psychologist and a Counsellor':

15.1 Mentoring Programme:

Students (as applicable school-wise) have been assigned faculty mentors whose role is to help assimilate the NMIMS culture, facilitate intelligent choice making regarding the selection of courses, and help identify resources needed by all students. Do meet your faculty mentor regularly, as per their convenience and availability.

15.2 Psychologist and a Counsellor:

A Psychologist is a non-judgmental, qualified professional who understands, ensures privacy and confidentiality and guides you by giving choices so that you make the right decision. This process is facilitated using realistic, structured, and research-based therapy.

Managing emotions is vital to ensure all-rounded progress in life. We need to break down the old walls of myths and misconceptions to learn something new. Visiting a counsellor (Psychologist) enables us to relearn more helpful, progressive, reality-based thinking.

Personal counselling is essential at every step in life, even at the corporate level. What we think about situations affects our subconscious mind and interferes with our present-day life.

As human beings, at any given time in life, we could go through challenges and have no one to share with or guide us. We often do not share our issues with family or friends due to the fear of upsetting them. We worry that perhaps they may not understand or could become judgmental. At such times, we recommend Personal Counselling.

- i. "I cannot concentrate or focus nor can I sleep, at times, I get so scared that I go blank in my exams!"
- ii. "Since the time he left me, I cannot put my attention to anything, I will not be able to live anymore.....can't bear it if she is not in my life!"
- iii. "I have lost my confidence, I feel worthless /hopeless; no one loves me. I don't want to live anymore."
- iv. "I feel nobody understands what I am going through..." (People become judgmental instead of understanding and supporting) "I feel people invalidate my feelings."
- v. "I do not know whom to share my feelings with. Where do I seek help? Who will be able to help me?"

Have you had any of these repetitive thoughts or faced a rejection that you cannot cope with?

Have you reacted very angrily at first and then later realised that reacting to the event was not needed, and in the process, you harmed the relations you had with your friends and family? Do you not know what went wrong then? Do you not understand what triggered you?

Just as we would treat a sprain with some ointment, we try to heal our emotional pain independently. When the sprain is not healing, we visit the doctor, and similarly, one sees the psychologist sometimes when we are unable to clear our emotional challenges on our own. The counsellor needs to check how deep your wound is, and usually, you are helped through therapeutic counseling.

We may be unaware of our behaviour's implications on others, but it eventually could affect our relations in daily life at home, in class, or at work. When past emotional situations are not dealt with therapeutically, we could develop unhealthy negative thoughts and feelings that we need to be aware of. They could again lead to complications and affect our performance, decision making, logical thinking, studies, relationships, and career. This continued stress can gradually affect our body and physiological health, causing hypertension, respiratory ailments, gastrointestinal disturbances, migraine and tension headaches, skin conditions, and ulcers. Understanding the mind-body connection is essential.

The biggest myth is that being emotional is to be weak, so often, we push all our emotional issues under the carpet and then take up unhealthy habits like smoking, drinking, and substance abuse to escape from our reality. We hope to feel better, which lasts only for a short time. On the other hand, creating long-term damage may lead to unhealthy dependency.

NMIMS wants to ensure the holistic development of the students. We understand that to perform at your highest potential in your academic journey, your emotions and mental health need to be well-regulated and balanced. Therefore, have appointed a team of psychologists who you can connect with via call or email and set up a session to discuss any concerns that may be affecting you.

21. Safety Guide for Students on Floods, Fire and Earthquakes

NMIMS gives utmost importance to safety of its students. It prepares students for natural hazards.

The safety measures for some natural disasters, such as 1) Floods, 2) Earthquakes and 3) Fire, are highlighted briefly.

21.1 Floods: Precautions to be taken in case of Floods are given in Table 1 below.

| Before Floods | During Floods | After Floods |
|--|--|--|
| <ul style="list-style-type: none"> Identify and visit elevated areas in and around the Institute as places of refuge during a flood Be aware of drainage channels and other low-lying areas known to flood suddenly. Consult and involve local authorities in the institutes Check for the monsoon alerts for the heavy rains declared by the Municipal Corporation Do not travel long distances on dates indicated as 'Monsoon Alerts'. Contact the Institute if there is any pre-planned activity or examination, or any other important work on that day, and try to adjust it on some other day Keep locally available equipment such as ropes, batteries, radio, plastic bottles, and cans handy during the rainy season. This can help you to plan your rescue Prepare a food kit including emergency food items such as biscuits, snacks, drinking water, and so on | <ul style="list-style-type: none"> Evacuate to previously identified elevated areas Your life is most precious. Avoid saving valuables at that moment. Disconnect electrical appliances. Turn off utilities at the main switches or valves if instructed to do so Don't touch electrical equipment if you are wet or standing in water Do not walk through moving water. Six inches of moving water can make you fall If you have to walk in water, walk where the water is not moving Use a stick to check the firmness of the ground in front of you Avoid floodwaters; water may be contaminated by oil, gasoline, or raw sewage Water may also be electrically charged from underground or downed power lines Listen to the radio for advanced information and advice. Don't spread rumors Move vehicles to the highest ground nearby Do not enter floodwaters on foot if you can avoid it Never wander around a flooded area Drink clean water | <ul style="list-style-type: none"> Stay away from downed power lines, and report them to the Security Officer Leave the Institute / home only when authorities indicate it is safe Stay out of any building if it is surrounded by floodwaters Use extreme caution when entering buildings; there may be hidden damage, particularly on foundations Floors in the building will be slippery due to water and mud. Walk carefully on the slippery floor. Wear appropriate footwear. Do not use slippers during the rainy season Watch out for loose flooring, holes, and dislodged nails Clean and disinfect everything that got wet Discard any food items which may have got wet Inform them about the damaged drainage and sewage systems in and around the building to the authorities as soon as possible. These can be a major health hazard First, protect yourself and then help others. |

21.2 Earthquake: Precautions to be taken in case of earthquakes are displayed in Table 2 below:

| Before Earthquake | During Earthquake | After Earthquake |
|---|--|---|
| <ul style="list-style-type: none"> In a hostel or at home, keep heavy objects on lower shelves so they will not fall on you during an earthquake. Make sure your water heater and gas cylinder are secured and intact. This will ensure that it will not fall during an earthquake and hurt someone or start a fire. Keep a torch and a mobile handy. Keep the corridors in the hostel/house clear of furniture and other things, making movement easier. | <p>If you are at home or inside a building</p> <ul style="list-style-type: none"> Do not rush to the doors or exits; never use the lifts; keep well away from windows, mirrors, chimneys, and furniture. Protect yourself by staying under the lintel of an inner door, in the corner of a room, under a table, or even under a bed. <p>If you are on the street</p> <ul style="list-style-type: none"> Walk towards an open place in a calm and composed manner. Do not run and do not wander round the streets. Keep away from buildings, especially old, tall, or detached buildings, electricity wires, slopes, and walls, which are liable to collapse. | <p>If you are at home or inside a building</p> <ul style="list-style-type: none"> Expect aftershocks. Be prepared. Stay where you are and do not come out immediately. Keep calm and obey any instructions you hear after you come out Turn off the water, gas, and electricity Do not smoke and do not light matches or use a cigarette lighter. Do not turn on switches. There may be gas leaks or short circuits. If there is a fire, try to put it out. If you cannot, call the fire brigade. Immediately clean up any inflammable products that may have spilled (alcohol, paint, etc.). Avoid places where there are loose electric wires, and do not touch any metal object in contact with them. Do not drink water from open containers without having examined it and filtered it through a sieve, a filter, or an ordinary clean cloth. Eat something. You will feel better and more capable of helping others. If the building is badly damaged, you will have to leave it. Collect water containers, food, and ordinary and |

You are about to set foot into the learning ecosystem and prepare yourself for the corporate world. You will experience the fantastic fusion of learning opportunities SBM has created for you. How you play with this fusion and prepare yourself depends on you and your determination. As they say: in performing arts and sports, the harder you practice, the luckier you get. The same is true with management education. SBM is a place where the faculty believes in and focuses on experiential learning with the greater use of technological innovations. We are hugely proud of the efforts they put in to create excitement in learning. Our courses are based on their scholarly pursuit in a number of areas, from marketing strategies, financial analytics, and financial micro-market structures to an understanding of organizational team, and interpersonal behaviour, block chain encrypted technologies, communication, management information systems, and operations management. The administrative staff will also guide you on how to make the optimum use of your time here in SBM through regular updates, announcements, and communiques to keep you abreast of crucial deadlines, submissions, schedules, and events.

The academic ecosystem works best in an environment where there is clarity and transparency in rules and regulations. To facilitate your journey with us and to ensure that there is a common reference point for all processes, rules, and regulations, we have compiled the “Students Resource Book,” which serves as a manual of instructions. We request that you go through it carefully to understand the curricula, requirements, course offerings, and rules and regulations that you need to abide by. I would urge you to contact your Professor, Program Chair, or Vice Dean, should you wish to seek their help.

Once again, I congratulate you on being part of a 44-year-old legacy of NMIMS, which has been at the forefront of providing quality management education. And I sincerely wish you happy learning and personal growth!

MBA DIGITAL TRANSFORMATION

India is swiftly moving towards a \$5 trillion economy and will become a \$45 trillion economy by 2047, especially with key policy reforms, which largely is aided by key focus on digitalization. As a country, we are leading this digital century.

This digital disruption has also necessitated organizations across industries to bet big on digitalization by re-engineering their processes, re-inventing their business models, innovating for superior customer experiences etc. As per a recent McKinsey report, best performing organizations are investing disproportionately in key technology capabilities and their own tech assets, to sustain and lead in this era

of uncertainty and disruption. Organisations are transforming its processes through automation, technology integration, optimisation, and by moving towards data-driven decision making. The same survey, however also points to the acute talent crunch for tech-savvy executives, who play an extremely critical role in driving these massive digital transformation exercises. Interestingly, this is in line with the BCG Global Digital Transformation survey for 2020 and 2021, wherein it was found, that 65 percent of the companies are struggling to mobilize the transformation journey. This call for leaders who can guide these organisations in navigating this complex transition.

The programme, thus caters to this market need, by producing leaders who not only understand management, business processes and emerging technologies, but also how these technologies can be leveraged to achieve business goals. The graduates of this programme will essentially play the role of digital change agents or digital translators, who can drive digital transformation initiatives within an organisation, by liaising with both business team and technology team.

MBA BUSINESS ANALYTICS

MBA in Business Analytics is a highly sought-after master's programme that provides students with a comprehensive understanding of data-driven decision-making and the analytical tools necessary to solve complex business problems. This two year full time programme emphasizes the development of essential skills, including problem-solving, communication, critical thinking, and covers a variety of topics, such as statistical analysis, data visualization, data management, predictive modelling, machine learning, and big data analytics. Graduates are in high demand across numerous industries, as businesses continue to rely on data insights to drive innovation and growth. The ability of the MBA in Business Analytics programme to align with industry expectations by keeping up with current trends and demands makes it an attractive option for candidates seeking to excel in today's data-driven world.

8 Course of Independent Study (CIS)/Seminar Papers

Across the different programs at the school, SBM has seminar papers that have to be taken up as part of the curriculum. There is also an option available to the students to pursue courses of independent studies. The table below lists down such requirement/option across different programs.

| Sr. No | Program | CIS/Seminar Paper |
|--------|--------------|-------------------|
| 1 | MBA & MBA DT | CIS |
| 2 | MBA PT SE | Seminar Paper |

The details of each of these are as follows:

8.1 Course Independent Study (CIS)

Course of Independent Study (CIS) allows students to pursue their interests in areas that are not covered in the regular bouquet of electives offered in the second year of the MBA programs.

A course of independent study is an exceptional instrument designed for advanced learning rather than serving as a substitute for regular courses. Such a course will necessitate high level of self-directed learning and may require students to study, conduct primary/ secondary research, and complete written examinations, reports, projects, research papers, presentations or similar assignments that are designed to measure competency in the stated educational objectives.

CIS is a course that a student co-designs and pursues under the guidance of a designated instructor to explore an area or course of knowledge that is not adequately covered through the normal elective courses on offer. By this very logic, a CIS is a privilege and not a right for the intending student, which is made available under exceptional circumstances including the following:

- 8.1.1** The student has demonstrated through his/her past academic performance, a preparedness to pursue an advanced course of investigation in the area of his/her choice.
- 8.1.2** The course matter of study is relevant for his/her career aspirations within the overall academic objectives of the MBA Programme.
- 8.1.3** The course matter is not adequately covered in the choice of elective courses on offer. The relevant area approves the offering of the CIS and a faculty member from within the area is willing and available to help with the design, delivery and evaluation of CIS.

Guidelines

1. CIS courses at SBM are offered in the IInd year of the MBA program.
2. Students can pursue only 1 CIS course in a year in either of Term IV, V or VI.
3. CIS courses will be equivalent to a full (3.0) credit course. No 0.5 credit, 0.75 credit or 1.5 credit CIS are permitted.
4. The CIS Course can also be considered as part of required courses for concentration in an area. The grade obtained in the CIS will be taken into account for calculation of student's CGPA just like any other full credit course but will not be considered for arriving at decision to award any scholarship and/or medal.
5. The academic capability of the student (reflected in CGPA), ability to pursue advanced work (as endorsed by the Area) and the relevance of the area of study to the career of the student (as demonstrated or organized in the proposal) are the indicative criteria for allowing a CIS.
6. A CIS must follow the primary course on offer. A CIS cannot be taken up on a course that is going to be covered in the subsequent courses.

Requirements

The following minimum criteria must be met to ensure overall outcome of the educational experience, success of the students and alignment to the Program learning objectives of SBM.

1. Students who wish to opt for CIS should have a minimum CGPA of 7.75
2. The CIS must include comprehensive objectives in written form.
3. The CIS must promote a high level of self-directed learning
4. Students must interact with the faculty-in-charge throughout the trimester
5. It is the responsibility of the students to communicate with the faculty and document the time spent on the CIS. Students are expected to be engaged in various CIS related activities for a minimum of 100 hours. These will include but not limited to in-class and out-of-class activities like reading, interaction with faculty, conducting primary research, analysis and interpretation, learning and use of databases and analytical software's and report writing.

Procedure

1. Eligible student(s) who wish to pursue a CIS will indicate such intent before bidding for their choice of electives for terms IV, V and VI. They will be responsible to make a good case as to why they should be permitted to pursue a CIS.
2. The preliminary proposals (in the prescribed format available with the Academic office) would be

forwarded to the Area Chairpersons for their consideration and discussion at the area level.

3. The Area Chairperson will intimate the approval of CIS proposals together with the name of the faculty guide to the Academic office as soon as possible but before the final registrations for term-IV begins.
4. The Area Chairperson will also provide to Academic office the timeline for the course in terms of stages like submission of final proposal, submission of course report, date of oral defense, panel of area members (3 members including the CIS guide) who would evaluate the course and the evaluation scheme.
5. Academic office will intimate to the concerned student the name of his/her faculty guide as approved by the Area. The student will have the option to withdraw from the CIS till his/her final registration for term-IV, V or VI open.
6. In case the CIS is not offered or the student chooses to withdraw from the CIS, s/he will be required to take up another course of equivalent credit from the available courses during the final registration for the respective term.
7. The responsibility for getting the CIS going alongside the faculty guide is that of the student. The finalization of proposal, regular meetings with faculty guide and other course related interactions are left to the initiative of the student.
8. Students carrying out CIS should circulate a reading list, duly approved by the guide, to all the Area members (with a CC to Academic office) within 7 days from the beginning of the respective term (term IV or V).
9. Students have to submit the CIS report to the Academic office before the 'End-Term Examination' of the term in which the student undertakes the CIS.
10. No extension of time for submitting the report will be allowed.
11. On receipt of the report, the Academic office will get in touch with concerned Area Chairperson and the Guide to finalize the date for presentation by the student.

As part of the evaluation of the CIS, a presentation will have to be made to the Evaluation committee on the date specified. This presentation will be open to SBM faculty and MBA program students besides the faculty members of that area. In case the Evaluation Committee is not satisfied with the CIS Report and presentation, it reserves the right to ask the student to re-write a part or whole of the report. However, in this case, the student will be awarded a maximum grade of B.

Milestones/ Deliverables

All CIS courses are expected to have the following milestones:

1. Expression of interest – This request to pursue CIS should be made before students chose electives for year II and should include (a) the proposed title and topic of study and the broad area of specialization to which it will belong (Please note that even where the CIS is cross-functional in nature, it has to belong to one primary area for guidance and evaluation); (b) relevance and importance of the course for the student.
2. Area level deliberation and confirmation (including faculty- student interaction to work on feasibility and topic finalization) – should be conducted within 3 weeks of receiving the EOI.
3. Presentation for defense of Proposal– Objective, Methodology, Terms of reference, Time frame – during the 1st week of the trimester.
4. Interim Submission – Presentation to reflect the progress of the study as per the terms of reference and time frame in the proposal – between 4-6 weeks from the beginning of the trimester.
5. Final Report and Defense (Viva) – in the 9th week

Format for Expression of Interest for Course of Independent Studies mentioned in Annexure

8.2 Seminar Paper MBA PT SE Program

In the course titled 'Seminar on Social Development' in Trimester VI of MBA PT (SE), the students develop and demonstrate expertise in the topic/theme of their interest in the area of Social Development and write it in the form of a research paper. The students are allotted a Faculty Guide. The Faculty Guide helps the student in developing the Research Paper over a period of ten weeks.

Aim of the Seminar Paper

- To develop research and documentation skills of the students in the area of social development Objectives of the Course
- To develop primary and secondary research skills of the students
- To help students develop knowledge of the concerned topic through review of literature
- To enable students to write research paper as per ethical standards

Nature and Scope of the Course

- The seminar course takes a comprehensive view of social development covering the relationship between development and social institutions, the phenomena of wider social change in the developmental context, role of politics/macro policies, and impact of technology as also the alternative paradigms of development and consequent interventions.
- The students identify their own areas of study on various themes on social development.
- Before the start of the Seminar Paper, a term before (in Term V), students are asked to submit a Concept Note on a theme/topic of their interest.
- The Concept Note covers the following points.
 - Topic
 - Rationale for selecting the topic
 - Objectives
- How is the student going to undertake the study- secondary/primary data sources?
- What are the important documents/reports/websites that the student will refer to?

One Session (3 hr.) is allotted in the Time Table, during which the students can meet the guide, do research in the library and work on the Seminar Paper. Apart from this, students can meet the guide as per need and convenience.

Students submit two written submissions/drafts, one at the mid-term and one at the end-term. The Faculty Guide evaluates the written submission. Mid-term Viva and End-term viva by an external faculty are conducted.

11. Placement Guidelines:

NMIMS is a premier University of the country, and the B-school has been in existence for over four decades. Over the years, it has earned recognition from industry & professional associations, corporates, peer group institutions and accreditation agencies. The University has a strong industry connection and is a preferred choice for the corporate sector for talent. Companies view NMIMS as a great place to recruit potential young managers and business leaders. Placement Support is offered to various programs across Campuses and Schools. Leading companies across sectors consider our students for recruitment/ internships. Our esteemed alumni occupy senior positions in leading companies across sectors and have always supported us in placements.

The Placement Office is an interface between NMIMS & the Industry for facilitating internships & recruitment opportunities for students. Efforts are made to market the programs with their merits.

Placement officials actively network with the corporate sector with an endeavour to get companies to open suitable job & internship profiles for the batch. They reach out to companies across sectors and locations for appropriate opportunities for students, showcasing the brand NMIMS, the quality and diversity of the batch, providing timely customized services, continuous communication, and offering support that would facilitate their participation in placements.

Placement officials mentor & guide the Students Placement Committee, who are actively involved in the activities, connecting with companies, meeting company officials for presentations, operational aspects and in coordinating various activities during the placement processes.

The placement guidelines are devised in the larger interest of the School and the batch, in consultation with students and faculty. Each of the Schools shares with the batch guidelines related to resumes, PPT, Internships, PPOs/PPIs, Final Placements, etc. The School reserves the right to change, modify the guidelines in the best interest of the batch. Students are expected to abide by the guidelines during placement processes. In the event of non-conformance with the placement guidelines, the School reserves the right to initiate corrective action.

Generally, students of the post-graduate programs are keen to participate in placements. However, many from the undergraduate programs opt out or do not register for placements as they have alternative career plans. This approach acknowledges the diverse goals and aspirations of students and features the institution's commitment to supporting individual choices that align with personal interests and career aspirations. These paths include pursuing further higher studies, preparing for entrance exams of professional programs, preparing for civil services, defence forces, government offices, engaging in family business ventures, entrepreneurial endeavours, etc.

Industry-Institute Connect

To optimize industry connect, effective interventions from the companies are sought so that students get to know of the opportunities available in the market, help to enhance their skill sets & then direct their efforts to seek profiles of their choice. Companies are encouraged to involve with the batch for campus engagement activities, thereby deepening the association and leading to a symbiotic relationship between NMIMS and the Industry. Guest talks, competitions, seminars, workshops, soft skills training, technical training, etc. are a great value add. These involvements bridge the gap between expectations of recruiters and the knowledge & skill sets of students.

The Placement process typically involves

- Batch Preparation
- Pre Placement Talks
- Internships/Projects
- Final Placements

Batch Preparation

The Batch Preparation Program is to enhance the suitability of candidates and orient them to industry practices and expectations.

- Interactive sessions with alumni/industry experts in various profiles that help students to gain clarity on role/fit, understanding expectations of the company, future prospects - career evolution, right approach for cracking interviews, listen to first-hand experience & get a feel of life in a particular profile, etc.
- Interaction with seniors who have undergone internships in companies.
- Assigning seniors or alumni as mentors to guide students.
- Mock interviews with alumni/corporates to get direct feedback from people in relevant industries.
- Guest talks and workshops on various topics from corporates.
- Resume building as per guidelines
- Technical, Soft skills training, etc.

Prior to the commencement of the selection process, it is expected that students have a fair idea about their interest, sector and specialization and direct their efforts accordingly. This clarity will help students land a good internship/job.

Students are expected to research about company, the business, the sector, financials, other players in the sector, etc., and be prepared with a background and fact file before the process. Also, some additional information – the number of interns/recruits in the past, whether the company has a PPO policy, the experience of seniors who interned with the company etc., will be of help.

The Placement Office also involves companies in several Campus Engagement activities – corporate contests, projects, workshops, seminars, and guest talks etc. that benefit a large number of students and also help in promoting the excellent quality of the batch.

Pre-Placement Talk – PPT

PPTs are a medium wherein the company officials disseminate information regarding their company, the profile, the compensation, etc. and clarify students' queries.

Internships/Projects

- The Placement Office makes all efforts to reach out for internships across varied sectors, companies, and profiles. Based on one's interests and capabilities, one should seek internships. Choosing the correct company for internships and performing up to the mark is of the utmost importance.
- The Internships are not only a window to the corporate world but also a relationship-building tool for NMIMS. It allows companies to look at the talent at NMIMS, thereby strengthening Final Placements.
- Internships are a great learning platform for our students and go a long way in shaping the learning obtained in the classroom. This experience is of immense use to students to enable them to acclimatize themselves to the intricacies of the corporate world.
- The project is expected to build on the theoretical learning with practical experience and help students to discover areas of interest and future career options, identify the gaps in their learning, which they can attempt to fill in.
- Interactions during the internships, both with other interns as well as employees, help students to understand the expectations/needs of the organisation, the sector in general, to identify the gaps in their learning, in orienting oneself towards the sector and developing the required skill sets to emerge as the most suitable candidate.
- Internships also hold a special significance as it is an apt mechanism for companies to spot bright talent early. Many companies have a structured internship process, which is used as a 'testing ground' to gain a direct understanding of the skill and ability of students, leading to the declaration of

PPOs/PPIs. NMIMS also encourages candidates to work towards such offers that are based on internship performance.

- Pre-Placement Offer (PPO) is an Offer by the company to the intern acknowledging the excellent work done during the internship. Pre-Placement Interview (PPI) is an opportunity by the company for the intern to be directly selected for the interview for final placements. Thus, the students should be careful in applying to the companies and should put in all efforts to convert the internship into an Offer.
- Internships are generally monitored, evaluated by a faculty guide, with periodic report submissions, evaluations, Viva Voce, etc.

Final Placements

- Leading companies across sectors aspire to recruit students of NMIMS. Companies devise the eligibility criteria and selection process and have their own set of characteristics or qualities that they look for in a candidate.
- The process of selection starts with inviting applications based on the eligibility, job description, compensation details, etc., shared by the company. The profiles of interested students are shared with the recruiter.
- The placement process is facilitated by the Placement Team. However, it is the effort of the student that gets him/her selected for the job. Not getting selected in the first few companies should not lead to panic. Students are advised not to switch profiles in anxiety or haste.
- The selection process could be physical or virtual & there could be multiple rounds – case analysis, group discussion, group exercises, interviews, etc. Reasons like location, family issues, etc., should not be constraints to students. They are expected to be mobile and have the capability to adjust, adapt, and respond to emergent situations successfully.
- Students who wish to drop out of the placement process, formally notify the Placement Office vide the 'Opted Out Form' mentioning the reason, which could be higher studies, entrepreneurship, family business, seeking placements on their own with company details, etc.

At NMIMS, leading companies across sectors compete to participate in placements offering coveted & niche profiles with matching packages to students across programs. Hence, students get a plethora of opportunities to choose from.

15. EXCHANGE PROGRAM

a. INTRODUCTION

NMIMS Deemed-to-be-University has developed an extensive International Students Exchange Program in order to provide a cross cultural exposure and a global perspective to the students apart from classroom teaching. This is managed by Department of International Linkages of the University. The Exchange Program has become increasingly popular with the students and every year students get a chance to spend Semester/Trimesters at a partner Institute. With the dedicated efforts of the International Linkages department, efforts are ongoing to have larger number of students to avail of this unique opportunity in every school. Students at NMIMS also benefit from interacting with overseas students who visit us as part of NMIMS Inbound exchange program and International Immersions.

In a world that is increasingly interdependent, it is imperative for the NMIMS Deemed-to-be-University to have an internationalization agenda. This policy on internationalization seeks to clarify the philosophy behind the NMIMS Deemed-to-be-University's Internationalization program and sets out the eligibility of students to apply for an international exchange program. It also sets out the selection criteria and guidelines for assessing applications and the expectations from the students going for the exchange program. This policy also lays out the facilities for international students in our programs and the expectations from them. 15.6 ENCLOSURES:

Undertaking to be given by student of NMIMS Deemed-to-be University's student going on International Immersion.

15.7 PROCESS

15.7.1 SELECTION PROCESS AND CRITERIA

Participation of students at Partner Universities is approved by the International Linkages office. Students who apply within the timeline given by the International Linkages Office will undergo an interview with the Faculty-In-Charge of International Linkages. Selection will depend on:

- Have a minimum CGPA score of 5.50.
- Number of applications and availability of seats at the selected Partner Institute.
- Compatibility of courses at the Partner Institute with the individual student's programme.
- The academic standing, motivation, seriousness of purpose, communication skills, social maturity and adaptability of the student.

15.7.2 SELECTION OF COURSES AT PARTNER INSTITUTES

After students complete the selection process at NMIMS, they will be nominated to the selected exchange university. The exchange university will contact nominated students by email and ask them to complete an online application procedure within a prescribed time period. An important part of this process is the selection of courses at the exchange university.

When selecting courses, students must remember the following:

- The courses selected, in terms of type of courses, number of courses and total classroom contact hours, must be in line with the students' NMIMS programme requirements.
- Students must select a minimum of 4 courses during their term abroad.
- No online courses should be selected, and none of the courses selected should contain online teaching method in the course outline.
- The courses selected must total a certain minimum number of contact hours of classroom teaching. This minimum number will depend on the student's programme at NMIMS. For FT MBA Core students (Mumbai campus), the minimum number is 120 hours (contact hours). Students of other programmes (other campuses) must check with their course coordinator or programme chairperson for minimum number of contact hours. Hours spent by the students in project work are not included in the minimum number of contact hours.
- The courses selected cannot be the same as the courses the students have completed or plan to complete at NMIMS.
- The courses selected should be in accordance with the students' programme requirements at NMIMS and must have the approval of their course coordinator and programme chairperson at NMIMS. For guidance on this, students may contact their course coordinator or programme chairperson at NMIMS.
- Students who are opting for **MBA with Concentration in Marketing or Finance or Operations & Data Sciences**, should choose a **minimum of 7 elective courses** (21 Credits) from the respective areas (listed in the elective selection guidelines) across the year in Trim IV, V & VI. Also, students need to plan their elective choices to cover at least 4 areas during the Second year (1 full credit course at least). **It is mandatory to complete concentration electives at SBM campus.**

- Students who are opting for the **General Management concentration**, must complete at least two courses from three distinct areas (e.g., Strategy, Marketing, Finance, etc.) at SBM and select courses at the partner institute to complete two courses from another two areas (e.g., Communication, ODS, Economics) to complete the criteria of two courses from five distinct areas.
- Students should ensure that they have done thorough research on the partner university that they prefer to ensure the programme requirements are met (in terms of specialization/ concentration) and are in line with NMIMS rules and regulations.
- No undergraduate courses should be selected, even if it is offered by the partner university.
- Upon joining the exchange university and finalizing their course selections (in case of any change), students must immediately email the final list of courses to their course coordinator and programme chairperson at NMIMS with a copy marked to the International Linkages office.

15.7.3 EXPECTATIONS REGARDING ACADEMIC GRADES AND COURSE-WORK

- Students must be extremely careful in fulfilling the academic requirements of their Host University. It is the student's responsibility to ensure that evaluations for every course are completed successfully. Students must meet Professors of every course they have taken to ensure that:
 - (1) They fully understand the requirements of the course as well as the evaluation norms
 - (2) Their submissions for every evaluation have been received on time.If a student brings back a failed grade, while the partner university does offer a re-examination opportunity, it is not feasible for our students to return and appear for the re-exam during the trimester, given the subsequent trimester requirements; therefore, the student is unable to avail this opportunity. In such a case, NMIMS will accept the grade as it is, and the student will have to repeat the year. Excuses such as "I was unaware that the assignment did not get uploaded/submitted" or "I was mistakenly accused of plagiarism" will not be accepted.
- In case there are any problems with or deviations in process for any course that students have taken at their Host University, students must inform NMIMS's International Linkages Office immediately with a copy marked to the administration of the host university and the professor teaching the course. Delay in informing and seeking approval from NMIMS's International Linkages Office may lead to negative consequences for the student.
- Students must also ensure that they do not get a failing grade in the trimester at NMIMS prior to the exchange programme. Students may not get an opportunity to appear for a re-examination and will have to repeat a year or it may delay their convocation.
- Students participating in the International Student Exchange Programme are eligible for the Dean's list during their 2nd year, provided they were also in the Dean's list for the 1st year. Such students will be shortlisted on the basis of the CGPA of two trimesters of the 2nd year.

16 Similarity Rules for All Programs

The similarity rules are applicable to all submissions leading to ICA components. All similarity instances in the Final examinations for all courses across programmes within SBM will be dealt with as per the unfair means of the university examination norms.

All submissions will be checked for similarity scores. Having similarity scores beyond acceptable limits is a serious offence, which is unethical and illegal. A similarity score of greater than 15% will attract penalty.

Note: All the following are considered as plagiarism and is likely to have a high similarity score

- Turning in someone else's work as your own
- Copying words or ideas from someone else without giving credit
- Failing to put a quotation in quotation marks
- Giving incorrect information about the source of a quotation

| 90-100 | O | 10 | Outstanding |
| 80-89.99 | A+ | 9 | Excellent |
| 70-79.99 | A | 8 | Very Good |
| 60-69.99 | B+ | 7 | Good |

| | | | |
|----------|----|---|---------------|
| 55-59.99 | B | 6 | Above Average |
| 50-54.99 | C | 5 | Average |
| 40-49.99 | P | 4 | Pass |

SVKM's NMIMS School of Business Management
Full Time MBA - Second Year –Batch 2024-26

Guidelines for Selection of Elective Courses

- I.** Students in the Second year of the FT MBA Program can choose elective courses from the list of electives offered (trimester wise). Based on the selection of electives, students will be placed in **ANY ONE** of the following categories:
 - a. MBA General Management**
 - b. MBA with Concentration in anyone**
 - i. Marketing**
 - ii. Finance**
 - iii. Operations and Data Sciences**
- II.** The degree awarded will be MBA. The concentration, if any, will be reflected only on the grade sheet/transcript. Students must adhere to the nomenclature given by SBM-NMIMS and use the same in all communication with the outside world.
- III.** A student must accumulate **42 credits** in the Second Year across trimesters IV, V, and VI. Please note that one full course is of 3 credits having 20 sessions of 80 minutes each and similarly, one-half course is of 1.5 credits equal to 10 sessions of 80 minutes each. Term-wise number of courses which you need to select are as follows:

Trim IV: 1 Compulsory Course* + Min 5 Elective Courses (Total Credits:18)

Trim V: Min 4 Elective Courses (Total Credits: 12)

Trim VI: Min 4 Elective Courses (Total Credits: 12) AND

**CAPSTONE® Business Simulation (3 credit)*
- IV.** Students are required to choose credit courses, trimester wise, from the 7 areas mentioned below and from the area wise list of electives (given separately as Annexure I):
 1. Business Environment & Strategy
 2. Communication
 3. Economics
 4. Finance
 5. Human Resources & Behavioral Sciences
 6. Marketing
 7. Operations & Data Sciences
- V.** For **MBA General Management**, student should choose minimum 2 full-credit electives from at least 5 different areas out of the seven areas (listed above in Point IV) across the year in Trim IV, V & VI.

- VI.** For **MBA with Concentration in Marketing or Finance or Operations & Data Sciences**, student should choose a **minimum of 7 elective courses** (21 Credits) from the respective areas (listed above in Point IV) across the year in Trim IV, V & VI. The area may conduct Workshops which will be a mandatory requirement for the concentration opted. Also, students need to plan their elective choices **to cover at least 4 areas** during the Second year (1 full credit course at least).
- VII.** Compulsory courses will not be considered for elective credit calculation as indicated in Points V and VI.
- VIII.** Students can pursue only ONE Course of Independent Studies (CIS) course in a year in either of Trimester IV, V or VI. CIS courses will be equivalent to a full (3.0) credit course. No 0.5 credit, 0.75 credit or 1.5 credit CIS are permitted. The CIS Course can also be considered as part of required courses for concentration in an area. The grade obtained in the CIS will be taken into account for calculation of student's CGPA just like any other full credit course but will not be considered for decisions related to award of scholarships and/or medals. Eligible student(s) who wish to pursue a CIS will indicate such intent before bidding for their choice of electives for trims IV, V and VI. They will be responsible to make a good case as to why they should be permitted to pursue a CIS. (For more details, please refer SRB).
- IX.** Students can take a **maximum of NINE elective courses** (equivalent to 27 Credits) from any one area during the Second year.
- X.** Students are required to choose their electives for all the Trimesters (IV, V & VI) before the start of the Second Year according to the dates specified. A complete list of electives available for Year II during Academic Year 2025-26 is available in Annexure I.
- XI.** Students will bid for their electives based on an **Open Bidding System**. Each student will get a certain number of points (based on their CGPA up to Trimester II), which will then be available to them for bidding on the subjects of their choice. (Please refer to the detailed note (to be shared shortly) on open bidding system for further information on the process).
- XII.** For an elective to be offered during a particular trimester, it should have at least 20 student registrations. However, in case an elective is being offered for the first time, then a minimum of 15 registrations are required. In case of lower number of registrations and in case the elective has to be dropped, registered students for that course will be offered seats in other electives, as available.
- XIII.** Students will be allowed to make changes to their initial elective selections during Add/Drop Round scheduled before every trimester. For this the dates will be announced in advance. A **maximum of 2 changes will be allowed in a single Add/Drop Round**. A student will not be allowed to move out of the course where the registration is 15 and the course is being offered for the first time, or in other courses when the registration is 20. Information for such electives will be provided before the Add/Drop Round.
- XIV.** The **maximum capacity per division per course is 65 students**. A course may have more than one division subject to student interest however, the exact number depends on operational and organizational factors. Students will be informed in advance about these details.

- XV.** The University offers **Interdisciplinary Courses** that will be made available to students as electives. Maximum TWO such electives can be taken in lieu of the electives from the Areas mentioned above while fulfilling the elective selection criteria for General Management / Concentration as the case may be. Details about the Interdisciplinary courses and registration details will be intimated separately.
- XVI.** Students can opt for **ONE Audit course per trimester** from the available courses from the elective pool in addition to the mandatory number of electives. The grade earned will be reflected on the transcript, but will not impact CGPA calculation or concentration completion requirement. Details of available audit courses will be communicated before commencement of each trimester.
- XVII.** It is the student's responsibility to ensure adherence to the guidelines mentioned here for earning their MBA in General Management/Concentration, failing which the degree may not be granted.
- XVIII.** The summer internship will be treated as a non-credit compulsory course. The candidate needs to satisfactorily complete this as per pre-decided norms, as an essential partial fulfillment of the requirements for award of MBA Degree
- XIX.** For students planning to visit foreign universities as part of the **international exchange-program**, the following additional guidelines will apply:
- i. It is mandatory to complete concentration electives at SBM campus
 - ii. No elective similar in nomenclature or content should be opted for at the Foreign University
 - iii. Elective Form (reflecting electives opted for in the foreign university) once filled up at Foreign University should be returned as early as possible to Faculty-in-Charge (International Relations-SBM).
- XX.** These rules supersede all other rules and notices, which may have been framed prior to 20th February 2025. The School of Business Management reserves the right to make changes in the above.
