Programs Introduction

Societies are searching for innovative and efficient ways to provide socially important goods in health, education, social services, environment and community development. With the emergence and growth of cross-sector partnerships, there is a growing realization that there is a way to combine the very best of the not-for-profit, philanthropic world with the very best of the for-profit, enterprising world. This hybrid is the wave of the future for both profit and nonprofit organizations. In the face of this new reality, an increasing number of forward-looking non-profits / NGOs are beginning to appreciate the increased revenue, focus and effectiveness that can come from adopting "for-profit" business approaches. Increasingly, they are reinventing themselves as social entrepreneurs, combining "the passion of a social mission with an image of business-like discipline, innovation, and determination.

In this context in 2007, NMIMS designed and launched a uniquely architected One Year Diploma Programme in Social Entrepreneurship and a Two Year Part-Time MBA Programme in Social Entrepreneurship. NMIMS is committed to nurturing the social entrepreneurs of tomorrow and strengthen the social entrepreneurs of today.

MBA (Part-Time) in Social Entrepreneurship (2- Years)

About the Jasani Center for Social Entrepreneurship & Sustainability Management

The Jasani Center for Social Entrepreneurship and Sustainability Management, NMIMS has been established with a deep respect for talent/passion and dedication of the countless individuals who have devoted their lives to the working for the common good. This work is difficult and involves unparalleled challenges. We believe that social sector leaders, business school faculty, MBA students and alumni can all benefit by joining in a systematic search for better ways to develop, sustain, and spread innovative and effective responses to social needs. Through thoughtful application of business expertise, we aim to foster entrepreneurial responses to social problems. The Center blends social concern with the professional response through an integrated approach that combines research and consultancy, teaching and field action. Its interventions include professional development of the social sector, capacity building for the resource-poor and entrepreneurship development. The comprehensive Disaster Management programme of the center specializes in providing capacity building programmes in the area of disaster preparedness and disaster mitigation for both for-profit and non-profit organisations. The Center has increasingly been involved in research and providing consultancy in areas of management of social enterprises, CSR, micro-enterprise management and conducting social audits.
