4. Academic Guidelines

4.1 Credit Structure

Credit structure is defined in terms of contact hours assigned for various academic components of a program. This includes classroom lectures, tutorials, practical sessions, projects, seminars, lab work, group work and any other academic activity for which contact hours are assigned in the curriculum. The details are as follows:

Trimester Pattern: For trimester pattern programs the credit specifications are as follows:

Details	Credit	Equivalence in hours in 10 weeks of Trimester
Theory Courses	1 credit	10 hrs.
Lab/Tutorial/Group/Presentation work	1 credit	20 hrs.
Seminar (subject to schedule throughout trimester)	1 credit	20 hrs.
Project work	1 credit	20 hrs.
Internship	1 credit	40 hrs.
Research paper/ dissertation	1 credit	20 hrs.

Semester Pattern: For Semester pattern programs the credit specifications are as follows:

Details	Credit	Equivalence in Hours in 15 weeks of Semester
Theory Courses	1 credit	15 hrs.
Laboratory Course / Studio activities	1 credit	30 hrs.
Tutorial Courses (Applicable for Technical Schools only)	1 credit	15 hrs.
Workshop-based activities *	1 credit	30 hrs.
Seminar / Group Discussion (Subject to schedule throughout the semester)	1 credit	15 hrs.
Project work & Dissertation	1 credit	30 hrs.
Internship (Max of six credits per semester)	1 credit	30 hrs. per week
Field-based Learning/Practices / Projects	1 credit	30 hrs.
Community Engagement and Service #	1 credit	30 hrs.

***Workshop-based activities:** Courses involving workshop-based activities require the engagement of students in hands-on activities related to work/vocation or professional practice. Every student is engaged in performing a skill-based activity related to specific learning outcome(s).

Community Engagement and Service: The Curricular component will involve activities that would expose students to the socio-economic issues in society so that the theoretical learnings can be supplemented by actual life experiences to generate solutions to real-life problems. 30 hrs of contact time per credit in a semester along with 15 hrs of activities such as preparation for community engagement and service, preparation of reports, etc., and independent reading and study. Thus, the total learner engaged time would be 180 hours for a 4-credit course.

4.2 Credit requirement to be eligible for the award of a degree:

It is required to define a minimum and a maximum credit requirement for awarding the degree of the program, along with the range of credits of every program. Under any circumstances, a student has to secure a minimum number of credits for a particular program to be eligible to get the degree.

Every programme has a minimum credit requirement in accordance with the applicable norms prescribed by the respective statutory/regulatory bodies, such as UGC, AICTE, PCI, BCI, COA, etc., generally aligned with a minimum of 40 credits per academic year or as otherwise specified by the concerned statutory / regulatory body.

Any student seeking re-admission to a program shall be required to fulfil the minimum credit requirement prescribed for that program for the award of the degree, irrespective of any subsequent revision to the program structure of credits.

For example, if a student enrolled in a four-year BBA program is eligible for the award of the degree upon successful completion of a minimum of 160 credits after four years, considering the requirement of 40 credits per academic year, irrespective of the fact that the total credit requirement of the program structure has a total of 162 credits.

4.3 **Term-end examination** is a compulsory component. The mode of the Term End Examination will depend on the Course Learning Outcomes.

4.4 **Duration of examination**

4.4.1 Minimum duration of Mid -Term Examinations: 1 hr.

4.4.2 Minimum duration of Term End Examinations: 2 hrs.

4.4.3 Examination duration can also be more than the above-specified time as defined by respective schools.

4.5 For all the programs, the weightage for each component will be specified by the Faculty and will form an integral part of the course outline (as per specific requirements of the school/program). The Faculty has the flexibility to formulate and implement an evaluation system with weightage specified in the course outline. While approving the courses, the HOD/Area-in-charge and the Dean/Director/ Associate Dean will ensure that the evaluation components and weightage points assigned to each component are fair. Such evaluation components should be announced to students before the commencement of course delivery.

4.6 For grading purposes, the weightage mentioned by the faculty in the course outline will be applied for each component of evaluation, irrespective of the marks assigned to the said component for the examination.

4.7 The minimum 15 number of students or 40% of the total number of students, to offer an elective course/s on the basis of the total number of students registered in that particular elective course.

4.8 Project Guidelines will be as per the requirements of the program of each school.

5. **Internal Continuous Assessment (ICA)**

5.1.1 It is the sole responsibility of every student to ensure that he/she completes all the components of Internal Continuous Assessment.

5.1.2 All components of ICA should be defined while designing the course syllabus by a faculty member. Those components and their weightage should be shared with the students at the start of the trimester/semester/annual term.

5.1.3 **Conduct of ICA components:** A timetable for the conduct of ICA components will be shared with the students by the school.

5.1.4 **ICA components Evaluation:** All the students shall be informed of the component-wise marks obtained by them within seven days of the conduct of ICA components by the respective faculty member or via the students' portal. Students are responsible for checking their marks on the portal. Any discrepancies in ICA marks should be informed and resolved within two days of publication on the portal.

5.1.5 **Passing Criteria for ONLY ICA course:** For a course that has only internal continuous assessment components and has no Term End Examination must be considered as an ONLY ICA course. The passing criteria for such ONLY ICA courses will be at 40% minimum of total of ICA marks. These passing norms may not apply to programmes where Regulatory bodies issue guidelines regarding passing norms.

If a student does not satisfy the passing criteria of 40%, there will be no re-examination for Only ICA Courses. If a student does not pass only ICA course, he/she must take re-admission in the same trimester/semester/annual term of the subsequent academic year of the program, or may opt for re-admission for the entire year of the program, provided they fulfill the eligibility criteria for re-admission mentioned in SRB. The student who fails in any only ICA Course may not be allowed to appear in the Term End Examinations of other courses.

5.1.6 **Grace Marks:** Grace Marks will never be awarded on the ICA (Internal Continuous Assessment) Component, irrespective of whether the course has TEE or only ICA components.

5.1.7 **ICA unfair practice penalties:** The adoption of unfair means by the candidates during the ICA component examinations is treated seriously, and appropriate penalties are imposed after following the University's

rules and regulations and principles of natural justice.

- a. The ICA component for which the unfair practice is reported, that component will get cancelled and will not be considered for evaluation.
- b. In case of a project/assignment, if the student is allowed to resubmit, the student will be awarded 50% of the total marks or actual marks, whichever is lower. For a group project/assignment, this applies to all students in the group.

SVKM's NMIMS decision with respect to this will be final and will not be challenged.

- viii. Deferrals are not automatic and, if granted, a non-refundable deposit is required to hold a place in the following year's entering class.
- ix. Once the program has commenced, then even though the applicant may not have attended the classes, still he/she will not be 'eligible' for 'admission deferment'.
- x. The deferment year shall be considered to include for the purpose of determining the maximum permissible duration for the completion of the program.

18. Feedback Mechanism:

SVKM's NMIMS has a well-established online feedback mechanism through the Student Portal for communication of perceptions. The components of this feedback mechanism are:

- 18.1 Feedback at the end of the third week of every trimester/Semester/annual term. Dean / Director /Programme Chairperson/HOD will meet students personally, if applicable.
- 18.2 Online Feedback through the Students Portal is taken using a questionnaire, preferably in the last session of every course in each trimester/semester/annual term. This feedback is compiled, and statistics are placed before each faculty member by the end of the trimester/semester/annual term.
 - 18.2.1 All students should get involved in this mechanism seriously, as it truly helps the SVKM's NMIMS improve the quality of services and teaching provided.
 - 18.2.2 These are open-ended questions in which students can reflect on learning and teaching aspects of the course.
 - 18.2.3 SVKM's NMIMS uses feedback to improve the teaching-learning process proactively.
 - 18.2.4 While sharing the feedback to the faculty members, the student's identity is kept confidential.

19. Mentoring Programme / 'Psychologist and a Counsellor':

19.1 Mentoring Programme:

Students (as applicable school-wise) have been assigned faculty mentors whose role is to help assimilate the SVKM's NMIMS culture, facilitate intelligent choice-making regarding the selection of courses, and help identify resources needed by all students. Do meet your faculty mentor regularly, as per their convenience and availability.

19.2 Psychologist and a Counsellor:

A Psychologist is a non-judgmental, qualified professional who understands, ensures privacy and confidentiality and guides you by giving choices so that you make the right decision. This process is facilitated using realistic, structured, and research-based therapy.

Managing emotions is vital to ensure all-rounded progress in life. We need to break down the old walls of myths and misconceptions to move towards growth. Visiting a counsellor (Psychologist) enables us to relearn more helpful, progressive, reality-based thinking strategies.

Personal counselling is essential at every step in life, even at the corporate level. What we think about situations, affects our subconscious mind and interferes with our present-day life.

As human beings, at any given time in life, we could go through challenges and have no one to share with or guide us. We often do not share our issues with family or friends due to the fear of upsetting or burdening them. We worry that perhaps they may not understand or could become judgmental. At such times, we recommend Personal Counselling.

- i. "I cannot concentrate or focus nor can I sleep, at times, I get so scared that I go blank in my exams!"
- ii. "Since the time he/she left me, I cannot put my attention to anything, I will not be able to live anymore.....can't bear it if she is not in my life!"
- iii. "I have lost my confidence, I feel worthless /hopeless; no one loves me. I don't want to live anymore."
- iv. "I feel nobody understands what I am going through..." (People become judgmental instead of understanding and supporting) "I feel people invalidate my feelings."
- v. "I do not know whom to share my feelings with. Where do I seek help? Who will be able to help me?"

Have you had any of these repetitive thoughts or faced a rejection that you cannot cope with?

Have you reacted very angrily at first and then later realised that reacting to the event was not needed, and in the process, you harmed the relations you had with your friends and family? Do you know what went wrong then? Do you understand what triggered you?

Just as we would treat a sprain with some ointment, we try to heal our emotional pain independently. When the sprain is not healing, we visit the doctor, and similarly, one sees the psychologist sometimes when we are unable to clear our emotional challenges on our own. The counsellor needs to check how deep your wound is, and usually, you are helped through therapeutic counseling.

We may be unaware of our behaviour's implications on others, but it eventually could affect our relations in daily life at home, in class, or at work. When past emotional situations are not dealt with therapeutically, we could develop unhealthy negative thoughts and feelings that we need to be aware of. They could again lead to complications and affect our performance, decision making, logical thinking, studies, relationships, and career. This continued stress can gradually affect our body and physiological health, causing hypertension, respiratory ailments, gastrointestinal disturbances, migraine and tension headaches, skin conditions, and ulcers. Understanding the mind-body connection is essential.

The biggest myth is that being emotional is to be weak, so often, we push all our emotional issues under the carpet and then take up unhealthy habits like smoking, drinking, and substance abuse to escape from our reality. We hope to feel better, which lasts only for a short time. On the other hand, it may create long-term damage leading to unhealthy dependency.

SVKM's NMIMS wants to ensure the holistic development of the students. We understand that to perform at your highest potential in your academic journey, your emotions and mental health need to be well-regulated and balanced. Therefore, have appointed a team of psychologists who you can connect with via call or email and set up a session to discuss any concerns that may be affecting you.

25 Safety Guide for Students on Floods, Fire and Earthquakes

SVKM's NMIMS gives utmost importance to safety of its students. It prepares students for natural hazards. The safety measures for some natural disasters, such as 1) Floods, 2) Earthquakes and 3) Fire, are highlighted briefly.

25.1 Floods: Precautions to be taken in case of Floods are given in Table 1 below.

Before Floods	During Floods	After Floods
- Identify and visit elevated areas in and around the Institute as places of refuge during a flood - Be aware of drainage channels and other low-lying areas known to flood suddenly. Consult and involve local authorities in the institutes - Check for the monsoon alerts for the heavy rains declared by the Municipal Corporation - Do not travel long distances on dates indicated as 'Monsoon Alerts'. Contact the Institute if there is any pre-planned activity or examination, or any other important work on that day, and try to adjust it on some other day - Keep locally available equipment such as ropes, batteries, radio, plastic bottles, and cans handy during the rainy season. This can help you to plan your rescue - Prepare a food kit including emergency food items such as biscuits, snacks, drinking water, and so on	- Evacuate to previously identified elevated areas - Your life is most precious. Avoid saving valuables at that moment. - Disconnect electrical appliances. - Turn off utilities at the main switches or valves if instructed to do so - Don't touch electrical equipment if you are wet or standing in water - Do not walk through moving water. Six inches of moving water can make you fall - If you have to walk in water, walk where the water is not moving - Use a stick to check the firmness of the ground in front of you - Avoid floodwaters; water may be contaminated by oil, gasoline, or raw sewage - Water may also be electrically charged from underground or downed power lines - Listen to the radio for advanced information and advice. Don't spread rumors - Move vehicles to the highest ground nearby - Do not enter floodwaters on foot if you can avoid it - Never wander around a flooded area - Drink clean water	- Stay away from downed power lines, and report them to the Security Officer - Leave the Institute / home only when authorities indicate it is safe - Stay out of any building if it is surrounded by floodwaters - Use extreme caution when entering buildings; there may be hidden damage, particularly on foundations - Floors in the building will be slippery due to water and mud. Walk carefully on the slippery floor. - Wear appropriate footwear. Do not use slippers during the rainy season - Watch out for loose flooring, holes, and dislodged nails - Clean and disinfect everything that got wet - Discard any food items which may have got wet - Inform them about the damaged drainage and sewage systems in and around the building to the authorities as soon as possible. These can be a major health hazard - First, protect yourself and then help others.

25.2 Earthquake: Precautions to be taken in case of earthquakes are displayed in Table 2 below:

Before Earthquake	During Earthquake	After Earthquake
- In a hostel or at home, keep heavy objects on lower shelves so they will not fall on you during an earthquake. - Make sure your water heater and gas cylinder are secured and intact. This will ensure that it will not fall during an earthquake and hurt someone or start a fire. - Keep a torch and a mobile handy. - Keep the corridors in the hostel/house clear of furniture and other things, making movement easier.	If you are at home or inside a building - Do not rush to the doors or exits; never use the lifts; keep well away from windows, mirrors, chimneys, and furniture. - Protect yourself by staying under the lintel of an inner door, in the corner of a room, under a table, or even under a bed. If you are on the street - Walk towards an open place in a calm and composed manner. Do not run and do not wander round the streets. - Keep away from buildings, especially old, tall, or detached buildings, electricity wires, slopes, and walls, which are liable to collapse.	If you are at home or inside a building - Expect aftershocks. Be prepared. Stay where you are and do not come out immediately. - Keep calm and obey any instructions you hear after you come out - Turn off the water, gas, and electricity - Do not smoke and do not light matches or use a cigarette lighter. Do not turn on switches. There may be gas leaks or short circuits. - If there is a fire, try to put it out. If you cannot, call the fire brigade. - Immediately clean up any inflammable products that may have spilled (alcohol, paint, etc.). - Avoid places where there are loose electric wires, and do not touch any metal object in contact with them. - Do not drink water from open containers without having examined it and filtered it through a sieve, a filter, or an ordinary clean cloth. - Eat something. You will feel better and more capable of helping others.

Before Earthquake	During Earthquake	After Earthquake
	If you are driving Stop the vehicle away from buildings, walls, slopes, electricity wires, and cables, and stay in the vehicle.	- If the building is badly damaged, you will have to leave it. Collect water containers, food, and ordinary and special medicines (for persons with heart complaints, diabetes, etc.). - Help people who are injured. Provide them with first aid. Do not move seriously injured people unless they are in danger. If you are outside - If you know that people have been buried, tell the rescue teams. Do not rush and do not worsen the situation of injured persons or your situation. - Do not re-enter badly damaged buildings and do not go near damaged structures. - Do not walk around the streets to see what has happened. Keep clear of the streets to enable rescue vehicles to pass. - Keep away from beaches and low banks of rivers. Huge waves may sweep in. - Keep updating yourself with the latest information on earthquakes through radio or TV.

25.3 Fire: Precautions to be taken in case of fire are given in Table 3 below:

Before Fire	During Fire	After Fire
- Identify the fire hazards and where fires might start, e.g., laboratories, storerooms, kitchens, and other such places. - Identify all the exit routes of the Institute. - Check the adequacy of the firefighting apparatus and its maintenance.	- Do not panic. Shout for help. - Do not run. - Do not waste time collecting valuables. - Inform the fire brigade about the fire and alert neighbors. - If possible, use a fire extinguisher. - Do not take shelter in the toilet. - Shut all the doors behind you while leaving the room to prevent fire from spreading everywhere. - Do not use the lift to escape. - Use the nearest means of escape and the staircase available. - Exit ground level instead of the terrace. - Report about your safe escape and any other information to the University authorities, fire brigade, or police present at the site. If trapped or stranded: - Stay close to the floor level. - Cover the gaps of the door with any piece of cloth available. - Do not jump out of the building. - Signal or shout for help. - Stop, drop, and roll on the ground and cover with a blanket; pour water on the body - Dial 101 or 22620 5301 for the fire brigade - Give the fire officer a detailed address, the nature of the incident, and the telephone number from which you are calling. Preferably, use a landline. Keep down the receiver and wait at the same spot. Control Room will call back to verify the call. - Wait for the Fire Brigade to arrive and co-operate with the firefighters.	Don't re-enter or permit anyone to enter the building, unless the fire officials have permitted entry.

25.4 In case of any injury caused or loss of life to the negligence of the student and/or due to natural calamities the institution shall not be held liable in any form of compensation and/or responsibility whatsoever.

3. Programs of SBM-NMIMS

MBA

The MBA is a two-year, full-time program structured across six trimesters, leading to the award of a Master of Business Administration (MBA) degree. As the flagship program of the School of Business Management, NMIMS Deemed-to-be University, Mumbai, it brings over 44 years of academic legacy and strong recognition in the corporate sector. Its alumni hold leadership positions across industries, with many also building successful entrepreneurial ventures.

Admission to the program is highly competitive. Candidates are shortlisted through NMAT, followed by a written assessment and personal interview. With an acceptance rate of less than 1%, the program attracts a highly capable and diverse cohort.

The first year builds a strong foundation across core management disciplines. The second year allows students to pursue specialisations aligned with their career goals. The curriculum is designed to balance academic rigour with flexibility, and focuses on developing analytical ability, digital competence, communication skills, and people management capability.

Learning is supported through language labs, interactive classroom methods, and structured workshops. Key initiatives include Annual Seminars, CEO Guest Lecture Series, Business Simulation Games, Personal Growth Labs, and Personality Development Workshops, all of which contribute to a comprehensive learning experience.

To integrate theory with practice, students complete a three-week social internship in the first year and an eight-week summer internship between the first and second years, gaining direct exposure to organisational contexts.

The pedagogy is participant-centred, with a strong emphasis on case-based learning. This is supplemented by lectures, problem-solving exercises, group work, discussions, and simulations.

The program aims to develop responsible managers who can make informed decisions, demonstrate social awareness, and take on leadership roles with clarity, adaptability, and effective interpersonal skills.

MBA (HUMAN RESOURCES)

Since its inception in 2011, our MBA in Human Resource Management has been dedicated to developing HR professionals who combine deep people expertise with strong business, analytical, and technological capabilities. Over the past 15 years, the program has evolved in response to shifts in work, workforce composition, regulation, and technology, while retaining its core emphasis on HR as a strategic business function.

Our graduates today occupy leadership roles across manufacturing, services, technology, consulting, and the public sector in India and globally. The program continues to be recognized among leading MBA–HR programs in the country for its academic rigor, industry relevance, and interdisciplinary orientation.

Program Evolution and Rationale for Change

Following regular and comprehensive curriculum reviews, the program has evolved strategically to strengthen four areas that are now central to contemporary HR leadership:

1. Strengthening Business Acumen and Strategic Orientation

The revised structure reinforces HR's role as a strategic partner by deepening exposure to courses like, 'Managing Strategy', 'Managing Change and Organizational Development', 'Corporate Finance' and 'People Integration in Mergers & Acquisitions'.

These changes ensure that HR professionals are equipped to contribute to enterprise-level decisions involving growth, restructuring, and organizational transformation.

2. Embedding Technology-Analytics Focus and Emphasizing Evidence-Based HR Practice

Recognizing the increasing importance of research literacy and evidence-based decision-making, the program now places greater emphasis on 'Business Research' workshops distributed across multiple trimesters. Courses like 'People Analytics', 'Emerging Technology in HR', and 'Disruptive HR Tech' enable students to move from basic analytical thinking to applied, technology-enabled HR solutions.

3. Deepening Understanding of Work, Workforce, and Society

The program continues to draw strongly from foundational courses like Business Anthropology and Sociology of Work, enabling students to critically examine power, identity, culture, inequality, and changing employment relationships. This interdisciplinary grounding is particularly relevant for understanding the increasing share of the gig and platform economy and challenges of diversity, inclusion, and ethical dilemmas in organizations.

4. Advancing Talent Management and Human Capability Development

The curriculum strengthens the talent lifecycle perspective through focused attention on 'Talent Planning and Acquisition', 'Employee Rewards and Recognition', 'Learning and Development', 'Managing Performance', and 'Talent Management'

These courses are designed to move beyond transactional HR processes, emphasizing strategic workforce planning, capability building, and long-term talent sustainability in dynamic organizational environments.

5. Developing Leadership, Emotional Intelligence, and Interpersonal Effectiveness

Recognizing that HR leadership requires high levels of self-awareness and relational capability, the program retains and reinforces learning in 'Emotional Intelligence', 'Leadership Communication', and 'Intercultural & Strategic Communication'.

This focus ensures graduates are prepared to handle complex interpersonal dynamics, lead change, and influence stakeholders at all levels and across functions.

5. Summer Internship and Project Guidelines

5.1 Project Assignment for Non-Interns

When a company does not select a student or the student cannot secure a summer internship independently, faculty members may assign projects to be completed over the summer period. It ensures continuous learning and engagement for all students.

5.2 Applicability of Internship and Projects

Summer Internships are exclusively designed for Full-Time MBA students, emphasizing practical exposure to industry practices. Conversely, Final Projects, Capstone Projects, and Class Projects are universally applicable across all courses and programs, allowing faculty members the discretion to assign relevant project work.

5.3 Submission of Final Project Report

Students must adhere to announced submission deadlines for their final project reports. Requests for extensions must be approved by the Dean, highlighting the importance of timely submissions in academic rigour.

5.4 Mandatory Summer Training

A compulsory component of the MBA program is participating in six to eight weeks of summer training within a company. The schedule for this training is communicated by the placement department, underscoring the program's commitment to practical learning.

5.5 Proactive Summer Placement Efforts

Students are encouraged to seek summer placement opportunities actively, leveraging their resources and those provided by the SBM NMIMS Placement Department. Students opting out of the placement process must promptly inform the department to avoid confusion and ensure a fair distribution of opportunities.

5.6 Summer Project Report Requirement

Completion of the Summer Internship necessitates the submission of a Summer Project Report to SBM by the stipulated deadline. This non-credit, compulsory course fulfils a critical requirement towards the MBA degree, emphasizing integrating theoretical knowledge with practical application.

5.7 Company Guide Review

Each student's project is subject to review by an assigned company guide. The students are responsible for ensuring this review reaches the Course Coordinator within the given timeframe, facilitating a comprehensive evaluation of their internship experience.

5.8 Faculty Guidance and Communication

Students are assigned a Faculty guide based on their internship area, requiring pre-internship consultations and ongoing communication for guidance and support. This partnership is pivotal for navigating challenges and maximizing learning outcomes during the internship.

5.9 Submission Guidelines

Students must provide soft and hard copies for all academic submissions as their faculty directs. Adherence to established project guidelines and referencing systems is expected to maintain academic integrity.

5.10 Integrity and Plagiarism

Students are required to conduct similarity checks on their reports to prevent plagiarism. SBM NMIMS treats plagiarism as a serious ethical and legal violation, with consequences aligned with the institute's disciplinary policies.

5.11 Incomplete Internships and Remediation

If students cannot complete the summer internship, they will be interviewed by the Career Advisory Committee (CAC). Some likely conditions owing to which the internship may not be completed are as follows:

- Personal reasons, including force majeure
- The Company Terminates the internship at an earlier date because the student is unable to complete the given task due to lack of interest
- The Company terminated the internship earlier because the student's work did not meet expectations.
- The Company terminates internships earlier because of breach of confidentiality or plagiarism.

The student may be allowed to complete the academic requirement of a summer internship by doing an industrial project. In ordinary circumstances, the student should complete the internship after the sixth term. Besides this, the CAC may recommend that SBM take one or more of the following actions.

Sr. No	Possible actions by the institute
1.	Debarment from receiving any Dean's list academic award from the institute
2.	Debarment from holding any official position in any SBM's student cell/body.

SBM encourages MBA students to work with faculty members on research projects/consulting assignments. Applications are called for by the concerned faculties depending on the requirement, based on which, students can send in their expression of interest.

- A limited number of research assistantships from time to time may be available for all students of Full Time MBA Programme.
- There will be a notice from concerned faculty inviting applications from students to assist them in doing a research project for a stipulated period of time.
- Students will be selected by the faculty under whom they wish to work.

8 Course of Independent Study (CIS)/Seminar Papers

Across the different programs at the school, SBM has seminar papers that have to be taken up as part of the curriculum. There is also an option available to the students to pursue courses of independent studies. The table below lists down such requirement/option across different programs.

Sr. No	Program	CIS/Seminar Paper
1	MBA & MBA DT	CIS
2	MBA PT SE	Seminar Paper

The details of each of these are as follows:

8.1 Course Independent Study (CIS)

Course of Independent Study (CIS) allows students to pursue their interests in areas that are not covered in the regular bouquet of electives offered in the second year of the MBA programs.

A course of independent study is an exceptional instrument designed for advanced learning rather than serving as a substitute for regular courses. Such a course will necessitate high level of self-directed learning and may require students to study, conduct primary/ secondary research, and complete written examinations, reports, projects, research papers, presentations or similar assignments that are designed to measure competency in the stated educational objectives.

CIS is a course that a student co-designs and pursues under the guidance of a designated instructor to explore an area or course of knowledge that is not adequately covered through the normal elective courses on offer. By this very logic, a CIS is a privilege and not a right for the intending student, which is made available under exceptional circumstances including the following:

- 8.1.1 The student has demonstrated through his/her past academic performance, a preparedness to pursue an advanced course of investigation in the area of his/her choice.
- 8.1.2 The course matter of study is relevant for his/her career aspirations within the overall academic objectives of the MBA Programme.
- 8.1.3 The course matter is not adequately covered in the choice of elective courses on offer. The relevant area approves the offering of the CIS and a faculty member from within the area is willing and available to help with the design, delivery and evaluation of CIS.

Guidelines

1. CIS courses at SBM are offered in the IInd year of the MBA program.
2. Students can pursue only 1 CIS course in a year in either of Term IV, V or VI.
3. CIS courses will be equivalent to a full (3.0) credit course. No 0.5 credit, 0.75 credit or 1.5 credit CIS are permitted.
4. The CIS Course can also be considered as part of required courses for concentration in an area. The grade obtained in the CIS will be taken into account for calculation of student's CGPA just like any other full credit course but will not be considered for arriving at decision to award any scholarship and/or medal.
5. The academic capability of the student (reflected in CGPA), ability to pursue advanced work (as endorsed by the Area) and the relevance of the area of study to the career of the student (as demonstrated or organized in the proposal) are the indicative criteria for allowing a CIS.
6. A CIS must follow the primary course on offer. A CIS cannot be taken up on a course that is going to be covered in the subsequent courses.

Requirements

The following minimum criteria must be met to ensure overall outcome of the educational experience, success of the students and alignment to the Program learning objectives of SBM.

1. Students who wish to opt for CIS should have a minimum CGPA of 7.75
2. The CIS must include comprehensive objectives in written form.
3. The CIS must promote a high level of self-directed learning
4. Students must interact with the faculty-in-charge throughout the trimester
5. It is the responsibility of the students to communicate with the faculty and document the time spent on the CIS. Students are expected to be engaged in various CIS related activities for a minimum of 100 hours. These will include but not limited to in-class and out-of-class activities like reading, interaction with faculty, conducting primary research, analysis and interpretation, learning and use of databases and analytical software's and report writing.

Procedure

1. Eligible student(s) who wish to pursue a CIS will indicate such intent before bidding for their choice of electives for terms IV, V and VI. They will be responsible to make a good case as to why they should be permitted to pursue a CIS.
2. The preliminary proposals (in the prescribed format available with the Academic office) would be

forwarded to the Area Chairpersons for their consideration and discussion at the area level.

3. The Area Chairperson will intimate the approval of CIS proposals together with the name of the faculty guide to the Academic office as soon as possible but before the final registrations for term-IV begins.
4. The Area Chairperson will also provide to Academic office the timeline for the course in terms of stages like submission of final proposal, submission of course report, date of oral defense, panel of area members (3 members including the CIS guide) who would evaluate the course and the evaluation scheme.
5. Academic office will intimate to the concerned student the name of his/her faculty guide as approved by the Area. The student will have the option to withdraw from the CIS till his/her final registration for term-IV, V or VI open.
6. In case the CIS is not offered or the student chooses to withdraw from the CIS, s/he will be required to take up another course of equivalent credit from the available courses during the final registration for the respective term.
7. The responsibility for getting the CIS going alongside the faculty guide is that of the student. The finalization of proposal, regular meetings with faculty guide and other course related interactions are left to the initiative of the student.
8. Students carrying out CIS should circulate a reading list, duly approved by the guide, to all the Area members (with a CC to Academic office) within 7 days from the beginning of the respective term (term IV or V).
9. Students have to submit the CIS report to the Academic office before the 'End-Term Examination' of the term in which the student undertakes the CIS.
10. No extension of time for submitting the report will be allowed.
11. On receipt of the report, the Academic office will get in touch with concerned Area Chairperson and the Guide to finalize the date for presentation by the student.

As part of the evaluation of the CIS, a presentation will have to be made to the Evaluation committee on the date specified. This presentation will be open to SBM faculty and MBA program students besides the faculty members of that area. In case the Evaluation Committee is not satisfied with the CIS Report and presentation, it reserves the right to ask the student to re-write a part or whole of the report. However, in this case, the student will be awarded a maximum grade of B.

Milestones/ Deliverables

All CIS courses are expected to have the following milestones:

1. Expression of interest – This request to pursue CIS should be made before students chose electives for year II and should include (a) the proposed title and topic of study and the broad area of specialization to which it will belong (Please note that even where the CIS is cross-functional in nature, it has to belong to one primary area for guidance and evaluation); (b) relevance and importance of the course for the student.
2. Area level deliberation and confirmation (including faculty- student interaction to work on feasibility and topic finalization) – should be conducted within 3 weeks of receiving the EOI.
3. Presentation for defense of Proposal– Objective, Methodology, Terms of reference, Time frame – during the 1st week of the trimester.
4. Interim Submission – Presentation to reflect the progress of the study as per the terms of reference and time frame in the proposal – between 4-6 weeks from the beginning of the trimester.
5. Final Report and Defense (Viva) – in the 9th week

Format for Expression of Interest for Course of Independent Studies mentioned in Annexure

8.2 Seminar Paper MBA PT SE Program

STUDENT GRIEVANCE/COMMITTEE SECTION

**** Student Grievance Redressal process @<https://nmims.edu/student-grievances.php>**

11. Placement Guidelines:

NMIMS is a premier University of the country and the B-school is in existence for over four decades. Over the years it has earned recognition from industry & professional associations, corporates, peer group institutions and accreditation agencies. The University has a strong industry connect and is a preferred choice for the corporate sector for talent. Companies view NMIMS as a great place to recruit potential young managers and business leaders. Placement Support is offered to students of various programs across Campuses and Schools. Leading companies across sectors consider our students for recruitments/ internships. Our esteemed alumni occupy senior positions in premier companies and have always supported us in placements.

The Placement Office is an interface between NMIMS & the Industry for facilitating internships & recruitments opportunities for students. Efforts are made to market the programs with their merits.

Placement officials actively network with the corporate sector with an endeavour to get companies to consider offering suitable job & internship profiles for the batch. They reach out to companies across sectors and locations for appropriate opportunities for students, showcasing brand NMIMS, the quality and diversity of the batch, provide timely customized services, maintain continuous communication and offer support that would facilitate their participation in placements

Placement officials mentor & guide the Student Placement Committee who are actively involved in various placement tasks, connecting with companies, meeting company officials for presentations, operational aspects and in coordinating several activities during the placement processes.

The placement guidelines are devised by Campus/School in the larger interest of the batch, in consultation with students and faculty. Each of the Schools share with the batch, guidelines related to Resume, PPT, Internships, PPO's/PPI's, Final Placements etc. The School reserves the right to change, modify the guidelines in the best interest of the batch. Students are expected to abide by the guidelines during placement processes. In the event of non-conformance of the placement guidelines, the School reserves the right to initiate corrective action.

Generally, students of the post-graduate programs are keen to participate in placements. However, many from the under-graduate programs opt out or do not register for placements as they have alternative career plans. This approach acknowledges the diverse goals and aspirations of students and features the institution's commitment to support individual choices that align with personal interests and career aspirations. These paths include pursuing further higher studies, preparing for entrance exams of professional programs, civil services, defence forces, government offices, engaging in family business ventures, entrepreneurial endeavours etc.

Industry-Institute Connect

To optimize industry connect, effective interventions from the companies are sought so that students get to know of the opportunities available in the market, help to enhance their skill sets & then direct their efforts to seek profiles of their choice. Companies are encouraged to involve with the batch for campus engagement activities thereby deepening the association and leading to a symbiotic relationship between NMIMS and the Industry. Guest talks, competitions, seminars, workshops, soft skills training, technical training etc. are a great value add. These involvements bridge the gap between expectations of recruiters and knowledge & skill sets of students.

The Placement process typically involves

- Batch Preparation
- Pre Placement Talks
- Internships/Projects
- Final Placements

Batch Preparation

The Batch Preparation Program is to enhance the suitability of candidates and orient them to industry practices and expectations.

- Interactive sessions with alumni/industry experts in various profiles that help students to gain clarity on role/fit, understanding expectations of the company, future prospects - career evolution, right approach for cracking interviews, listen to first-hand experience & get a feel of life in a particular profile, etc.
- Interaction with seniors who have undergone internships in companies.
- Assigning seniors or alumni as mentors to guide students.
- Mock interviews with alumni/corporates to get direct feedback from people in relevant industries.
- Guest talks and workshops on various topics from corporates.
- Resume building as per guidelines
- Technical, Soft skills training, etc.

Prior to the commencement of the selection process, it is expected that students have a fair idea about their interest, sector and specialization and direct their efforts accordingly. This clarity will help students land a good internship/job.

Students are expected to research about company, the business, the sector, financials, other players in the sector, etc. and be prepared with a background and fact file prior to the process. Also, some additional information – the number of interns/recruits in the past, whether the company has a PPO policy, the experience of seniors who interned with the company etc., will be of help.

The Placement Office also involves companies in a number of Campus Engagement activities – corporate contests, projects, workshops, seminars, and guest talks etc. that benefit a large number of students and also helps in promoting the excellent quality of the batch.

Pre-Placement Talk – PPT

PPTs are a medium wherein the company officials disseminate information regarding their company, the profile, the compensation, etc. and clarify students' queries.

Internships/Projects

- The Placement Office makes all efforts to reach out for internships across varied sectors, companies and profiles. Based on ones' interests and capabilities, one should seek internships. Choosing the correct company for internships and performing up to the mark is of utmost importance.
- The Internships are not only a window to the corporate world but also a relationship-building tool for NMIMS. It allows the companies to have a look at the talent at NMIMS, thereby strengthening Final Placements.
- Internships are a great learning platform for our students and go a long way in shaping the learning obtained in the classroom. This experience is of immense value to students to enable them to acclimatize themselves to the intricacies of the corporate world.
- The project is expected to build on the theoretical learning with practical experience and help students to discover areas of interest and future career options, identify the gaps in their learning, which they can attempt to fill in.
- Interactions during the internships, both with other interns as well as employees, help students to understand the expectations/needs of the organisation, the sector in general, to identify the gaps in their learning, in orienting oneself towards the sector and developing the required skill sets to emerge as the most suitable candidate.
- Internships also hold a special significance as it is an apt mechanism for companies to spot bright talent early. Many companies have a structured internship process, which is used as a 'testing ground' to gain a direct understanding of the skill and ability of students, leading to declaration of PPO's/PPI's. NMIMS also encourages candidates to work towards such offers that are based on internship performance.

- Pre-Placement Offer (PPO) is an Offer by the company to the intern acknowledging the excellent work done during the internship. Pre-Placement Interview (PPI) is an opportunity by the company for the intern to be directly selected for the interview for final placement. Thus, students should be careful in applying to the companies and should put in all efforts to convert the internship into an Offer.
- Internships are generally monitored and evaluated by a faculty guide, with periodic report submissions, evaluations, Viva Voce etc.

Final Placements

- Leading companies across sectors aspire to recruit students of NMIMS. Companies devise the eligibility criteria and selection process and have their own set of characteristics or qualities that they look for in a candidate.
- The process of selection starts with inviting applications based on the eligibility, job description, compensation details, etc. shared by the company. The profiles of interested students are shared with the recruiter.
- The placement process is facilitated by the Placement Team. However, it is the effort of the student that gets him/her selected for the job. Not getting selected in the first few companies should not lead to panic. Students are advised not to switch profiles in anxiety or haste.
- The selection process could be physical or virtual & there could be multiple rounds – case analysis, group discussion, group exercises, interviews etc.
- Reasons like location, family issues etc. should not be constraints to students. They are expected to be mobile and have the capability to adjust, adapt and respond to emergent situations successfully.
- Students who wish to Opt Out of the placement process should formally notify the Placement Office vide the 'Opted Out Form', mentioning the reason, which could be higher studies, entrepreneurship, family business, seeking placements on their own etc., with details.

Students are expected to honour the sanctity of placements, maintain strict confidentiality, and refrain from sharing sensitive information or posting anything on social media.

Leading companies across sectors participate in our placements offering sought-after profiles with matching packages to students across programs. We deeply value the continued patronage and trust of the corporate sector. Students are requested to understand this sentiment and uphold the reputation of NMIMS at all times.

14. Student Council

The Student Council is the apex student body and represents all full-time students of the School of Business Management (SBM), NMIMS. The Council is composed of the President, Vice President, General Secretary and 12 other members selected from across all second year full-time MBA programs. In the fulfilment of their responsibilities, the 15 Council members are assisted by first year students known as Student Council Representatives (SCR). Every year, the Council and its SCRs are selected through formal selection procedures involving the SBM administration, faculty and existing Student Council members. The Council's work is overseen by the Chairperson, Student Activities, who is appointed by the Dean of SBM.

The Student Council strives to fulfil the following objectives:

- To serve as representatives of the student body of SBM and act as a liaison between the School's administration, faculty and students.
- To organize and facilitate a variety of co-curricular and extra-curricular events and activities intended to enhance student learning and development.
- To provide guidelines and protocols for the smooth functioning of different student cells under its umbrella.

Each cell is managed by a Faculty In-charge appointed by the Dean of SBM. To enable effective co-ordination within and among student cells, strong alignment of activities and smooth overall functioning of cells, the Student Council has established protocols, guidelines and standard operating procedures for the cells to follow. Strict adherence to guidelines and procedures helps the cells in the conduct of their operations, recruitment of cell members and budgetary considerations. Following is the Structure of the Student Council:

15. Alumni Relations Cell (ARC) – SBM, NMIMS

The Alumni Relations Cell (ARC) of the School of Business Management, NMIMS was established in 2002 and has since been actively fostering engagement between the institute and its alumni community. ARC is a student-led body that works to build and maintain strong, sustained relationships with alumni.

The ARC's core responsibility lies in meaningful alumni engagement through communication, events, networking platforms, and student-alumni initiatives. ARC plays a pivotal role in keeping alumni informed, involved, and inspired by regularly updating them on institutional developments, achievements, and events via newsletters, email campaigns, and direct outreach. The Alumni Relations Cell has established a strong, consistent mechanism of communication with alumni on a day-to-day basis. This includes sharing special achievements by alumni, institute activities, job opportunities, event invitations, database updates, and responding to alumni queries.

ARC also manages the official alumni portal (<https://alumnisbmmumbai.nmims.edu>), a dedicated platform for alumni networking and information exchange. The monthly e-newsletter, *Aluminous*, further strengthens this connection by highlighting campus updates and achievements, keeping alumni engaged and connected.

To ensure high-impact interaction, ARC organizes initiatives such as:

- **Career ARC (formerly Round Table Conference)** – An alumni-led mentorship and interaction series conducted prior to Summer Internship Placements where alumni share industry insights, career journeys, and corporate expectations with students.
- **Summer Connect** – An alumni–student initiative that connects first-year MBA students with alumni working in organizations where students are placed for their Summer Internship (SIP). This enables students to receive practical guidance on role expectations, team dynamics, performance tips, and workplace readiness, helping them maximize internship learning and improve their chances of securing Pre-Placement Offers (PPOs)
- **Guest Speaker Sessions** – Featuring alumni as thought leaders across various domains.
- **Event Collaborations** – Supporting other student bodies like the Student Council, clubs and committee's with alumni outreach for judging panels and speaker engagements.

ARC also conducts and supports alumni gatherings, including:

- **Annual flagship Mumbai Meet (Grand Alumni Meet) and Silver Jubilee Felicitation**
- **Chapter Meets** in Delhi, Bangalore and Pune
- **Homecoming** – Introduced in 2025, this initiative invites a specific alumni batch back to campus to reconnect with peers and faculty through engaging activities and interactive sessions, while also sharing updates on institutional developments. The first edition welcomed the Batch of 2023.
- **International Meets** in cities such as Dubai, New York, and Toronto
- **Coffee Meets** (“Connecting over Coffee”) in major Indian metros, held at least twice a year

In parallel, the **NMIMS Business School Alumni Association**, incorporated under Section 25 of the Companies Act, 1956 (on July 13, 2011), functions as a formal body focusing on long-term strategic initiatives. These include institutional building, brand positioning, fund-raising, and offering scholarships. The Association serves as a platform for alumni to meaningfully contribute to the continued growth of NMIMS.

ARC and the Alumni Association collaborate toward the shared goal of enriching the alumni-institute bond. Together, they contribute in complementary ways to strengthening the alumni ecosystem and the broader reputation of the School of Business Management, NMIMS.

16. GUIDELINES FOR INTERNATIONAL STUDENT EXCHANGE PROGRAM

a. INTRODUCTION

NMIMS Deemed-to-be-University has developed an extensive International Students Exchange Program in order to provide a cross-cultural exposure and a global perspective to the students apart from classroom teaching. This is managed by the Department of International Linkages of the University.

The Department of International Linkages connects NMIMS with leading institutions worldwide by partnering with 50+ top-ranked global universities. It facilitates a wide range of opportunities, including student and faculty exchanges, dual-degree and progression programs, international immersions, research collaborations, internships, and global academic engagements.

The Exchange Program has become increasingly popular with the students and every year, students get a chance to spend Semester/Trimesters at a partner Institute. With the dedicated efforts of the International Linkages department, efforts are ongoing to have a larger number of students to avail of this unique opportunity in every school. Students at NMIMS also benefit from interacting with overseas students who visit us as part of NMIMS Inbound exchange program and International Immersions.

b. PREAMBLE

In a world that is increasingly interdependent, it is imperative for the NMIMS Deemed-to-be-University to have an internationalization agenda. This involves the creation of a multi ethnic environment in our programs on our campus. This can happen only when students from different countries and communities join NMIMS programs.

This policy on internationalization seeks to clarify the philosophy behind the NMIMS Deemed-to-be-University's Internationalization program and sets out the eligibility of students to apply for an international exchange program. It also sets out the selection criteria and guidelines for assessing applications and the expectations from the students going for the exchange program.

This policy also lays out the facilities for international students in our programs and also the expectations from them. We expect our foreign students to conduct themselves at par with other Indian students.

To aggressively pursue the internalization agenda, NMIMS has signed MOUs with leading Universities. MOUs applicable for NMIMS schools as given below:

18 EXAMINATION GUIDELINES

18.1 EVALUATION & GRADING

The respective Course faculty would evaluate the performance of the students during the examination of the respective course. A student would undergo continuous assessment for each course in all the trimesters. Various components of such continuous assessment would be as decided by the respective course teacher/ faculty and approved by Dean /Director of the school/ campus concerned.

Break up of continuous evaluation of each course will be as under:

Program	Component	Marks	Total
MBA Full time / MBA part time	Mid Term / Unit Test / Project/ Assignment/ Presentation/ Weekly Tests / Case Study/ Quizzes / any other (School)	60	100
	Final Term/ Trimester End Examination (University)	40	

18.2 PASSING STANDARDS FOR EACH COURSE (SUBJECT):

Trimester-end-exam Passing Criteria for each Course:

- Secure a minimum of 40% marks in the Term /Trimester / Semester end examination of that course and
- Secure a minimum of 40% aggregate marks out of the total marks (that is, internal continuous assessment plus assessment of the Term /Trimester / Semester end examination) allotted to the course.
- For a course which has only internal continuous assessment component, passing will be at 40%.

18.3 GRADING SYSTEM

The University follows a letter grading system leading to the award of Ten Grade Points.

Grade Point Average (GPA) for each term and Cumulative Grade Point Average (CGPA) for all the terms until date.

‘Letter grades’ and corresponding ‘Grade Points’ are as under:

Letter Grade	Grade Points
O	10
A+	9
A	8
B+	7
B	6
C	5
P	4
F	0
AB	0

a) Method of calculation of letter grades for a batch size above 30: (Relative Grading)

1. Grading will be done after considering the marks obtained (i.e., aggregate of internal continuous assessment and Trimester end examination marks) by each student of the entire batch for the course sharing common paper, by fitting such marks into normal distribution curve.
2. Maximum marks assigned by the faculty concerned for a course will be taken into account for the batch/ group, For the purpose of assigning grades, the following table would be used

Sr. No	Letter Grade	Letter Grade and Description	% Of class	Total%
1	Grade O	O (Outstanding)	5 percent of the batch excluding Grade P & F	5%
2	Grade A+	A+ (Excellent)	10 percent of the batch excluding Grade P & F	30%
3	Grade A	A (Very Good)	20 percent of the batch excluding Grade P & F	
4	Grade B+	B+ (Good)	30 percent of the batch excluding Grade P & F	50 %
5	Grade B	B (Above Average)	20 percent of the batch excluding Grade P & F	
6	Grade C	C (Average)	15 percent of the batch excluding Grade P & F	15 %
7	Grade P	P (Pass)	Where marks obtained are between 40 and 49.99	
8	Grade F/AB	F (Fail) / Absent	Where marks obtained are less than 40 (39 and below) in aggregate.	

b) Method of calculation of letter grades for a class size of less than or equal to 30 (Absolute Grading)

Absolute grading will be applicable for the courses where the count of students is less than or equal to 30.

‘Letter grades’ and corresponding ‘grade points’ are as under:

Percentage of Marks	Grade	Points	Performance
90-100	O	10	Outstanding
80-89.99	A+	9	Excellent
70-79.99	A	8	Very Good
60-69.99	B+	7	Good
55-59.99	B	6	Above Average

50-54.99	C	5	Average
40-49.99	P	4	Pass
0-39.99	F	0	Fail
	AB	0	Absent

- 18.3.1 **Method of Calculation of GPA:** Grade Point Average for a term will be computed by dividing, the sum of product of grade point of each course and credit value assigned, to each respective course by the sum of credits assigned to all the courses for the related term.

$$GPA = \frac{\sum CG}{\sum C}$$

- 18.3.2 **Method of Calculation of CGPA:** Cumulative Grade Point Average up to and including a term will be computed by dividing the sum of product of grade point of each course and credit value assigned to each respective course by the sum of credits assigned to all the courses up to and including the related term.

Here:

$$CGPA = \frac{\sum CG}{\sum C}$$

C = Credit value assigned to a course/ module

G = Grade point value assigned to a student for course corresponding to the letter grade (refer table given)

GPA: Grade Point Average shall be calculated for Individual term.

CGPA: Cumulative Grade Point Average shall be calculated up to and including each term till date.

SVKM's NMIMS School of Business Management
Full Time MBA - Second Year –Batch 2026-27

Guidelines for Selection of Elective Courses

- I. Students in the Second year of the FT MBA Program can choose elective courses from the list of electives offered (trimester wise). Based on the selection of electives, students will be placed in **ANY ONE** of the following categories:
 - a. **MBA General Management**
 - b. **MBA with Concentration in anyone**
 - i. **Marketing**
 - ii. **Finance**
 - iii. **Operations and Data Sciences**
- II. The degree awarded will be MBA. The concentration, if any, will be reflected only on the grade sheet/transcript. Students must adhere to the nomenclature given by SBM-NMIMS and use the same in all communication with the outside world.
- III. A student must accumulate **42 credits** in the Second Year across trimesters IV, V, and VI. Please note that one full course is of 3 credits having 20 sessions of 80 minutes each and similarly, one-half course is of 1.5 credits equal to 10 sessions of 80 minutes each. Term-wise number of courses which you need to select are as follows:

Trim IV: 1 Compulsory Course* + Min 5 Elective Courses (Total Credits:18)

Trim V: Min 4 Elective Courses (Total Credits: 12)

Trim VI: Min 4 Elective Courses (Total Credits: 12) AND

**CAPSTONE® Business Simulation (3 credit)*
- IV. Students are required to choose credit courses, trimester wise, from the 7 areas mentioned below and from the area wise list of electives (given separately as Annexure I):
 1. Business Environment & Strategy
 2. Communication
 3. Economics
 4. Finance
 5. Human Resources & Behavioral Sciences
 6. Marketing
 7. Operations & Data Sciences
- V. For **MBA General Management**, student should choose minimum 2 full-credit electives from at least 5 different areas out of the seven areas (listed above in Point IV) across the year in Trim IV, V & VI.
- VI. For **MBA with Concentration in Marketing or Finance or Operations & Data Sciences**, student should choose a **minimum of 7 elective courses** (21 Credits) from the respective areas (listed above in Point IV)

across the year in Trim IV, V & VI. The area may conduct Workshops which will be a mandatory requirement for the concentration opted. Also, students need to plan their elective choices **to cover at least 4 areas** during the Second year (1 full credit course at least).

- VII. Compulsory courses will not be considered for elective credit calculation as indicated in Points V and VI.
- VIII. Students can pursue only ONE Course of Independent Studies (CIS) course in a year in either of Trimester IV, V or VI. CIS courses will be equivalent to a full (3.0) credit course. No 0.5 credit, 0.75 credit or 1.5 credit CIS are permitted. The CIS Course can also be considered as part of required courses for concentration in an area. The grade obtained in the CIS will be taken into account for calculation of student's CGPA just like any other full credit course but will not be considered for decisions related to award of scholarships and/or medals. Eligible student(s) who wish to pursue a CIS will indicate such intent before bidding for their choice of electives for trims IV, V and VI. They will be responsible to make a good case as to why they should be permitted to pursue a CIS. (For more details, please refer SRB).
- IX. Students can take a **maximum of NINE elective courses** (equivalent to 27 Credits) from any one area during the Second year.
- X. Students are required to choose their electives for all the Trimesters (IV, V & VI) before the start of the Second Year according to the dates specified.
- XI. Students will bid for their electives based on an **Open Bidding System**. Each student will get a certain number of points (based on their CGPA up to Trimester II), which will then be available to them for bidding on the subjects of their choice. (Please refer to the detailed note (to be shared shortly) on open bidding system for further information on the process).
- XII. For an elective to be offered during a particular trimester, it should have at least 20 student registrations. However, in case an elective is being offered for the first time, then a minimum of 15 registrations are required. In case of lower number of registrations and in case the elective has to be dropped, registered students for that course will be offered seats in other electives, as available.
- XIII. Students will be allowed to make changes to their initial elective selections during Add/Drop Round scheduled before every trimester. For this the dates will be announced in advance. A **maximum of 2 changes will be allowed in a single Add/Drop Round**. A student will not be allowed to move out of the course where the registration is 15 and the course is being offered for the first time, or in other courses when the registration is 20. Information for such electives will be provided before the Add/Drop Round.
- XIV. The **maximum capacity per division per course is 65 students**. A course may have more than one division subject to student interest however, the exact number depends on operational and organizational factors. Students will be informed in advance about these details.
- XV. The University offers **Interdisciplinary Courses** that will be made available to students as electives. Maximum TWO such electives can be taken in lieu of the electives from the Areas mentioned above while

fulfilling the elective selection criteria for General Management / Concentration as the case may be. Details about the Interdisciplinary courses and registration details will be intimated separately.

- XVI.** Students can opt for **ONE Audit course per trimester** from the available courses from the elective pool in addition to the mandatory number of electives. The grade earned will be reflected on the transcript, but will not impact CGPA calculation or concentration completion requirement. Details of available audit courses will be communicated before commencement of each trimester.
- XVII.** It is the student's responsibility to ensure adherence to the guidelines mentioned here for earning their MBA in General Management/Concentration, failing which the degree may not be granted.
- XVIII.** The summer internship will be treated as a non-credit compulsory course. The candidate needs to satisfactorily complete this as per pre-decided norms, as an essential partial fulfillment of the requirements for award of MBA Degree
- XIX.** For students planning to visit foreign universities as part of the **international exchange-program**, the following additional guidelines will apply:
 - i. It is mandatory to complete concentration electives at SBM campus
 - ii. No elective similar in nomenclature or content should be opted for at the Foreign University
 - iii. Elective Form (reflecting electives opted for in the foreign university) once filled up at Foreign University should be returned as early as possible to Faculty-in-Charge (International Relations-SBM).
- XX.** These rules supersede all other rules and notices, which may have been framed prior to 19th February 2026. The School of Business Management reserves the right to make changes in the above.
